

## The Agir tôt program enables you to :

Identify your child's **strengths**  
and **challenges**;

Get **help, advice** and **tips** for  
both yourself and your child;

**Be directed** to services near you;

Have **access** to a **specialist**,  
if necessary.

**A child well supported in his or her  
development is more likely to have a  
successful start at school.**

**It's important to act early!**

These services are free, accessible to  
everyone and don't require medical referral.

Supporting our children's development

## Do you have a child aged 0 to 5 years?

Is it hard to understand your child  
when he or she talks?

Does your child have trouble  
understanding instructions?

Does your child fall often or  
have difficulty walking?

Is it hard for your child to  
play or interact with other  
children?

## Are you concerned about your child's development?

Sometimes a little help is needed.

Contact your doctor or CLSC directly.
